

Curriculum Vitae of

Md. Majbah Uddin Ahmed Bhuiyan

**House-Nasir Bhaban(G.F),
Moinnapara, Halisahar, Chittagong
Mob : 01813-999221 / 01833-511005
E-mail : rbmajbah2@gmail.com**

Career Objective

I am professionally qualified with Mechanical Engineering. With an extensive experience in engineering and management, leadership and problem solving, my engineering forte is in Production and maintenance. I am seeking employment that will make best use of my skills and allow me to develop them further.

Work Experience: 1

**Assistant-Engineer
(Production)
Sundarban
Industrial Complex
Limited
(A Company of
Bashundhara Lp Gas
Ltd.)
Pangaon, Konda,
South Keranigonj
Dhaka-1311,
Bangladesh.**

**3rd February 2018 to
till now.**

- ❖ Responsible for improving production efficiency, product improvement, and staff efficiency.
- ❖ Responsible for Monitoring & analysis of all lines (Forming line, Welding line, Heat Treatment line, Painting line & Finishing line) efficiency, time loss and machine operational problems.
- ❖ Detection and implementation of corrective actions needed to prevent recurrence of product failure and withdrawal (if any).
- ❖ Responsible to ensure the product standard (DOT4BA240 & DOT4BW240)
- ❖ Responsible to input daily production & PP Master Data, Material Master, Work Center, BOM Routing, Semi-Finished and Finished Goods in SAP software.
- ❖ Responsible to execute the monthly & annual Machine Maintenance Schedule through the Advice of Plant Manager.
- ❖ Responsible for the overall plant operation safety, discipline & cleanliness of each workstation.
- ❖ Conduct valve maintenance process and old cylinder servicing work.
- ❖ Responsible for monthly production schedule and implementation accordingly.
- ❖ Forecasting the quantity of raw materials and consumables item for keeping the production smooth.

Work Experience: 2

**Sub-Assistant
Engineer
(Maintenance)
Bangladesh Steel
Re-Rolling Mills
Limited (BSRM)**

**1st December 2012
to 1st February 2018.**

- ❖ Checking & setting required all the rolling mills parameters like cooling water pressure, flow rate, Hydraulic pressure, oil temperature etc.
- ❖ Fixing different parts & issues of machines required for smooth production during breakdown & making able for production as early as possible for minimizing the idle time.
- ❖ Erection & commissioning of any extended area for making production capacity higher.
- ❖ Schedule maintenance during day off for smooth production throughout the week
- ❖ Maintain all the spare parts needed for regular maintenance.
- ❖ Maintenance of different machine parts like a pump, gearbox, roller table, oscillation table & cooling chamber etc.
- ❖ Crane Mechanical Maintenance.
- ❖ Hydraulic system maintenance.
- ❖ Maintain daily & weekly checklist of machine maintenance.

Education

**B.Sc. in Mechanical
Engineering
(2017)**

: Institution : Sonargaon University SU
: Department : Mechanical
: CGPA : 3.14 (out of 4)

**Diploma in
Engineering
(2011)**

: Institution : Feni Polytechnic Institute, Feni, BTEB.
: Department : Mechanical Technology
: CGPA : 3.35 (out of 4)

**Secondary School
Certificate
(2007)**

: Institution : Chittagong Port Authority High School, Chittagong
: Department : Science
: CGPA : 4.00 (out of 5)

**Professional
Training**

- Fire and safety training** : Title : Fire fighting, Fire prevention, Rescue and first aid training.
: Institute : Bangladesh fire service & civil defense directorate
: Duration : 2 Days.
- Industrial Attachment Course** : Title : Industrial Attachment & Training of Mechanical Engineering
: Institute : Bangladesh Industrial Technical Assistance Center (BITAC)
: Duration : Six months
- Technical Training 1** : Title : Practical Training on Rolling Mill Mechanical Maintenance
: Institute : At BSRM plant, Chittagong by Danieli Training Center
: Duration : Four days
- Technical Training 2** : Title : Theoretical Training on Rolling Mill Mechanical & Hydraulic maintenance
: Institute : At BSRM plant, Chittagong by Danieli Training Center
: Duration : Two weeks
- Technical Training 3** : Title : Training Workshop on Industrial Hydraulic system (Operation & maintenance)
: Institute : Bangladesh University of Engineering and Technology (BUET)
: Duration : 2 Days

Other Skills

- Operating system** : Windows 7, Windows 8,
Application software : SAP, SAP S4Hana, MS-Office, PowerPoint, Excel,
Language : Bangla & English
: Good managerial skill
: Ability to work under pressure
: Team work & team commitment.
: Embrace the responsibility of new challenge
: Passion for innovation & creativity

Personal Details

- Name** : Md. Majbah Uddin Ahmed Bhuiyan
Father's Name : Md. Taher Ahmed Bhuiyan
Mother's Name : Farida Yeasmin
- Permanent Address** : Vill: Subarnapur, P.O.: Bijoykora, P.S.: Chauddagam, Dist.: Comilla.
Date of Birth : 16/12/1992
Marital Status : Married
Nationality : Bangladeshi
