On Going Work for Publication: I am currently working on a paper about transforming businesses with artificial intelligence, big data analytics, deep learning and cloud computing technology with professor Shahriar Akhter from the University of Wollongong Australia. The paper is focused on literature reviews of academic journals, the goal is to provide a detailed analysis on how businesses perform by using the technologies.

Career as a Research Assistant: Name of the Project: Frontline Employees Service Adaptiveness in Bigdata driven Services Environment; Accelerating service productivity using bigdata. I have worked as a research assistant for a year under the supervision of Professor Shahriar Akter, my task was to conduct qualitative interviews with industry leaders of Big-Data analytics and technology. After the interview my second task was to transcribe the interviews.
